This is to request that you reject NAB's petition 04-160. I travel by car extensively for business, logging over 20,000 miles per year. Many areas I drive thru do not have good radio reception, if at all. I rely on my satellite radio to get weather and traffic reports in many remote areas that enable me to travel safely. This gives me much peace of mind, I am willing to pay for this service, and strongly feel that I should continue to have that choice.  
Thank you.
